

CONTENTS

DANILOV'S READING. PLENARY REPORTS

Baldin V. Yu., Nikitina G. I.

Main results of the International Youth Danilovsky Energy Forum – olympiads and conferences “Energy and resource saving. Power supply. Non-traditional and renewable sources of energy. Nuclear energy” – 2018 in UrFU3

Alwan Nasir T., Shcheklein S. E.

Compressor-photovoltaic technology to get water from the air11

Shelokov Ya. M., Lisienko V. G., Chesnokov Yu. N., Lapteva A. V.

Russian energy development forecasts16

ENERGY SAVING AND ENERGY EFFICIENCY INCREASING. POWER SUPPLY

Lazcano-Shentsov C. M., Valtseva A. I., Valtsev N. V.

Trends and perspectives of the energy sector in Latin America26

Alekseeva L. V., Balobanov Y. V., Pushkarev A. E.

Enhancement of energy efficiency and reliability of heating systems in the Udmurt Republic due to carrying out investment programs30

Asonov D. A., Romanova T. N.

Data centers heat utilization34

Afanasenkov M. O., Agapitov E. B.

Heat loss management when using modern materials for furnace lining38

Bagautdinova A. R., Kolpakov A. S.

Small-scale production of liquid natural gas in the Sverdlovsk region42

Balagurova Eu. A., Valtsev N. V., Valtseva A. I.

Reduction of heat losses with flue gases by increasing the efficiency of using the surface of TG-104 water economizer boiler46

Baskakova A. A., Neshporenko E. G.

Investigation of the utilization option of cooling systems' low-potential heat50

Bikmukhametova K. M., Vafina D. E., Neshporenko E. G.

An energy efficiency study of limestone firing process54

Bobrova O. D.

Manageability increase in power electricity: the introduction of digital and intellectual systems59

Borisova T. V., Zaitseva E. S., Levonchuk K. S., Gordeyev A. V.

Comparative analysis of heat-insulating materials of heat networks63

Bragin D. M., Rakhimova Ju. I.

Thickness dependence of non-effective insulation on critical insulation diameter and pipe diameter67

Vasilevskiy N. S., Fazylova Y. A., Munts V. A.

Heat exchange intensification at copious cooling of flue gases71

Gavrikov M. I., Dvorak A. A., Osipov P. V., Mikula V. A.

Analysis of the steam supply system of the copper-zinc processing plant76

Gaistruk A. Yu., Goldobin Yu. M., Proshin A. S.

Dynamic of a steam boiler furnace as a control system plant80

Gorozhaninova Yu. S., Kiselnikov A. Yu.

Optimization of the heat-recovery boiler regulators at the CHP «Akademicheskaya»84

Gubarev A. A., Kotov O. M.

RF path calculation considering the obstacle points88

Gubareva K. V., Eremin A. V.	
Research of the heat conductivity process in plate with internal heat sources of variable power	92
Gubareva K. V., Eremin A. V.	
Solution of the non-stationary heat conductivity problem with the internal heat sources constant in time (boundary conditions of third genus)	96
Gudiev T. T., Kabisov A. A., Plieva M. T.	
Methods for diagnostic of electric transmission air lines	100
Gusyatnichenko M. A., Ptashkina-Girina O. S., Volkova O. S.	
Assessment of energy-saving measures for a preschool institution, Kopeysk, Chelyabinsk region	104
Gushshamova V. N., Muhnovsky V. A., Mordanov S. V., Khomyakov A. P.	
Simulation of pressure distribution in the heat exchanger tube space	108
Jamanbalin B. K., Koksharov V. A.	
Theoretical analysis of the existing methodological approaches for identifying priority problems of the country electric power development	112
Doronin A. S., Trubitsyn K. V., Kudinov V. A.	
Optimization of tariff formation methods on services for heat energy transmission	117
Efremenko A. V.	
Energy saving in the construction of orthodox churches in Russia	121
Zakirov E. M., Tsareva M. V., Salnikov V. S., Bondarenko V. V., Velkin V. I.	
Introduction of electric heating in multi-apartment buildings – an alternative to centralized heating	125
Zaslavskiy E. A., Blinov V. L.	
Comparison of methods for determining effective power of gas pumping units	129
Zvorykina A. A., Schelokov A. I.	
Enhancing energy efficiency of modern multi-storey buildings	133
Zolotuhin K. A., Bogatova T. F.	
Application of gas turbine steam injection technology	137
Zubkov I. S., Blinov V. L.	
Issues of energy efficient centrifugal compressor constructions strength	141
Zubkov I. S., Blinov V. L.	
Multiple criteria of centrifugal compressor optimization	146
Zyazev M. E., Lyampasova E. S., Konyaev A. Yu.	
Improvement of energy characteristics of technological installations based on linear induction machines with modular design of inductors	150
Ibragimova A. R., Valiullov R. R., Ziganshin A. M.	
Flow in a dividing tee – symmetric and asymmetric	154
Ivakina S. A., Munts V. A., Munts J. G.	
Gas formation process under zinc concentrate roasting in fluidized bed	158
Ivanov N. S., Muravyov A. V.	
Comparative evaluation of the efficiency of horizontal vacuum boilers with a standard and heated shaft	162
Ivanova S. V., Varaksina E. A., Kartavtsev S. V.	
Reducing thermal losses through the wall with application of forced cooling in high-temperature processes	165
Ivanova A. A., Kolpakov A. S., Halperin L. G.	
Vibrofluidized bed dispersed material stability analysis	170
Ivanova A. A., Rostovshchikova O. S., Ponomarev V. B.	
Inaccuracy in calculation of coefficients of particles motion resistance in a gas medium	174
Ivanova S. V., Starkova E. S., Neshporenko E. G.	
Research of effective ways to reduce thermal losses in high-temperature processes and installations	178

Ivacheva N. D., Hitskov A. A., Glyzina A. E.	
Heat-insulating mixes for the metallurgical industry	183
Iglina T. V., Iglin P. V.	
Development of an algorithm to identify the causes of increased oxygen content of the main condensate based on the analysis of operational data	187
Iglina T. V., Iglin P. V., Popov A. I.	
Determination of reliability indicators at Bezymyanskaya CHP	191
Iglina T. V., Iglin P. V.	
Analysis of the causes of increased oxygen content in the condenser at Kirovskaya CHPP-4	195
Izhevsky R. P., Shapovalov S. V., Lisienko V. G., Holod S. I.	
Opportunity to optimize the parameters of aerodynamic characteristics by the method of mathematical modeling	199
Ilinykh V. A., Migalatiy E. V.	
Membrane technologies for water and energy sustainability	205
Kamaev D. A., Frizen V. E., Lusgin V. I.	
Dual frequency induction melting of metal	209
Karasev I. A., Pavlyuk E. Yu.	
Energy efficient way of paraffin oil production and transport systems	212
Kiknavelidze G. G., Kolpakova N. V.	
Analysis of fuel sources for LNG regasification complexes	216
Kirpichnikova E. S., Abdullaev Zh. O., Bolshakov K. A., Konyaev A. Yu.	
Assessment of factors influencing the efficiency of eddy-current separators for the processing of solid metal containing wastes	220
Knyazev N. A., Komarov E. A.	
Energy efficiency improving in an air conditioning system based on implementation of a cold storage tank	224
Kozlova Y. A., Lebedeva E. A.	
Reconstruction of the boiler room at the woodworking enterprise	228
Komarov E. A., Kuznetsov D. V.	
Influence of noise requirements in premises on the calculation of air distribution devices	232
Korzavina A. A., Chernenko Ya. A., Anufrieva E. I.	
Green universities are drivers of energy-saving technologies	236
Kudryavtsev S. A., Suvorov D. M.	
Efficiency of heating make-up water in the built-in beams of turbine condensers with single-stage and two-stage heating of delivery water	240
Kulikova V. S., Marina P. Yu., Valtseva A. I.	
Features of the Unified energy system of Russia and its main problems	244
Levonchuk K. S., Zaitseva E. S., Borisova T. V.	
Cogeneration on the basis of a water-boiler as an energy efficient solution	250
Maslov A. V., Khalyapov K. M., Kolpakov A. S.	
Improving the thermal-hydraulic efficiency of boilers and heat exchangers using compact tube bundles	254
Makhova A. S., Lebedeva E. A.	
Energy-saving technology in heat supply system of the industrial shop	258
Mitroshin M. A., Shkred M. A., Ponomarev I. A.	
The use of gas turbine cogeneration plant (CCGT) for power generation and reduction of energy costs	262
Morozov K. S., Kotov O. M.	
Data preparation system for calculations of electrical systems structural reliability	266
Morozov I. O., Zhizhina U. V., Gritcuk S. A., Tuponogov V. G.	
Capture of carbon dioxide emissions in steel production	269

Mokhov K. S., Suvorov D. M.	
Efficiency of heating of the make-up water in the condensers when working of CHP according to electrical schedules at different temperatures of delivery water	273
Muftahutdinova Z. R.	
Using of complex air cleaning and decontamination systems	277
Nazmutdinova L. A., Ziganshin M. G.	
Resources of BIM technologies at the stages of justification of construction and design of complex the buildings for various purposes	280
Naskina D. R., Muravyov A. V.	
Study of press filter application possibilities for drying organic raw materials	284
Nikonov V. D., Kremnev I. A., Shkrylov S. I., Strelov I. S., Blinov V. L.	
Improvement of the main units of a gas-turbine installation using methods of computational gas dynamics	287
Odinaev I. N., Murzin P. V., Bobokalonov F. Z., Pazderin A. V.	
Compensating methods of distorted data under current transformer saturation	292
Osminkina A. S., Pavlyuk E. Yu., Savkin A. V.	
Comparative analysis of heat and hydraulic characteristics for ribbed surface with different types	296
Paramonov A. S., Kazakbaev V. M., Oshurbekov S. H., Prakht V. A.	
Comparison of energy consumption of asynchronous and synchronous reluctance motors in pump applications	300
Peshkin K. S., Rahimova Yu. I.	
Complex of events to increase the energy efficiency of dwelling house in Samara	304
Pishascin I. G., Dagaev S. Y., Lebedeva E. A.	
Prospects for the use of cogeneration technologies in steam and hot water boilers	308
Poluyanov N. S., Silaev V. I., Khuzmiev I. M., Klyuev R. V.	
Study of nonsinusoidality of voltage in the system of electric supply of the industrial enterprise	312
Popov A. I., Iglina T. V., Slobodchikov D. V.	
Mathematical model of temperature fields in a ball bearings bodies under boundary conditions of the third kind	316
Pustokhin P. Y., Zhutnik A. B., Iunusov R. M.	
The analysis of ways to reduce daily fluctuations in electricity consumption	320
Redunova M. S., Pavlyuk E. Yu.	
Heat transfer calculation for pipes with cool-down	325
Reznik P. L., Ovsyannikov B. V., Bessonov S. A.	
Optimization of heat treatment of deformable aluminum alloy 1200	329
Rodnova O. U.	
Energy efficiency and energy saving of private houses	333
Rostovshchikova O. S., Ivanova A. A., Ponomarev V. B.	
Inaccuracy of determining the deposition rates of moving particles in a gas medium by the criterion equation	337
Rybalskya V. P.	
Digitalization of distributional electric grids	341
Safiullina G. R., Ziganshin A. M.	
Computer model of flow in a symmetric junction tee – equal sided design	345
Selezneva E. A., Shchepochkina Ju. A.	
About energy-efficient and environmentally friendly homes	349
Sementsova A. M., Yakovlev V. A.	
Practicability of usage of condensing technology for different kinds of gas	353

Smetanin V. V., Denisenko V. I., Semenenko V. M., Ermolenko A. I., Ataev T. S.	
Analysis of the cooling system heat state of a special purpose asynchronous motor with an asymmetric magnetic core	357
Sodikzoda T. Kh., Suvorov D. M., Sushchikh V. M.	
Efficiency of gas turbines with energy injection of steam using a boiler-utilizer	361
Soldatov D. A., Retivih P. A., Ryabchikov A. Yu.	
Energy efficiency enhancement of vapor distribution bodies of steam turbines with a capacity of 200 MW	365
Sysoeva Ui. I., Valtseva A. I.	
Methods of protection of overhead power lines from icing	369
Tarasov F. E., Bychkov S. A., Frizen V. E., Shmakov E. I.	
Development of induction equipment for heating stamp equipment for vertical hydraulic press with force 300 MN	373
Tatarenkova T. V., Shaykhitdinova K. H., Sokolova M. S.	
Investigation of the protection of an object from a high-temperature medium by thermal insulation	377
Tvorogova T. Yu., Nikitina N. P.	
Energy-efficient architectural and planning solution of Irkutsk airport	381
Travina D. V., Biryuzova E. A.	
Modern high-performance thermal insulation materials	386
Turkova Y. A., Biryuzova E. A.	
Accidents on natural gas distribution networks: causes and preventive measures	390
Ulyanova E. M.	
Modern heating systems for energy passive houses	395
Filimonova S. A., Ziganshin A. M.	
Computer model of flow in a symmetric junction tee – unequal sided design	399
Cherepanov S. S., Hvorenkov D. A.	
Mini-CHP for disposal of associated petroleum gas on the territory of the Udmurt Republic	403
Shavshaeva A. I.	
Use of waste heat energy for hot water supply	407
Shein V. M.	
Energy audit of regional and urban heat supply systems as a method for evaluating their prospects and problems	411
Shein V. M.	
Ensuring high heat supply potential by unbalancing the heat network	415
Shcherbinin K. A., Munts V. A., Pavlyuk E. Yu.	
Heat transmission capacity in thermal isolation of heat pipe systems	418

SAVING RESOURCES AND IMPROVING ENVIRONMENTAL EFFICIENCY

Antonova V. S., Tazeev N. R., Sokolova M. S.	
Research of the possibility to increase the domain gas use in power boilers	422
Baimuratova E. M., Medvedev Iv. A., Kartavtsev S. V.	
Development of limestone firing technologies improvement	426
Bekkulova R. F., Selezneva I. S., Yeltsov O. S.	
Research of enzymatic hydrolysis of castor oil using lipase from <i>Candida Rugosa</i> in the enzymator	430
Berezyuk M. K., Selezneva I. S., Ivantsova M. N.	
Comparison of production technologies of the grapes mash cryoconcentrate and dosage liqueur	434

Vavilov V. A., Kholmogorov D. Y., Didenko V. N.	
Gasoline or compressed natural gas for Lada Vesta CNG	438
Vavilova M. A., Tretyakova N. A.	
Associated petroleum gas processing technology and its environmental impact	442
Varaksina E. A., Kartavtsev S. V.	
Energy efficient method of converter gas utilization	446
Varaksina E. A., Sokolova M. S.	
Study of the power boiler efficiency operation on mixtures of flammable gases	450
Gorlov D. A., Selezneva I. S., Ivantsova M. N.	
Comparison of new methods in penicillinacylase immobilization	453
Gumirova E. S., Gerasimova E. S.	
Study of the JSC "Oskol Electrometallurgical Plant" slag using possibility in the production of cement compositions	457
Ilina A. D., Masharipova K. Sh., Gerasimova E. S.	
Recycling of concrete and mortar mixtures production wastes	461
Kuloshvili T. S., Krivenko A. A., Ostanina T. N.	
Effect of electrolyte composition on electrocatalytic properties of nickel foams	465
Lebedyantseva E. A., Ivantsova M. N., Selezneva I. S.	
The whey processing	469
Lipina E. I., Hachanesyan M. S., Zolotareva E. G.	
Method to produce the activated coke from heavy oil residues	473
Makarova E. S., Ponomarenko A. A.	
Obtaining and properties of sulfated portland cement using Ural technogenic materials	477
Minbagisov T. Z., Selezneva I. S., Ivantsova M. N.	
Assessment of the possibility to reduce the energy and resource consumption in Valaciclovir production	481
Mufteeva L. F., Girenko G. S., Pavlova I. A.	
Production of high-porous cellular catalysts for purification of exhaust gases	485
Obrubova A. P., Getman A. A., Pavlova I. A.	
High-aluminum chamotte with application of the floated corundum production wastes	488
Petrosyan F. L., Nikulin V. A., Sekachev M. V., Khomiakov A. P., Bezmaternykh M. A.	
The effect of cavitation water treatment on yeast growth	492
Plenkina T. S., Remboldt V. I., Shukalov A. A., Konyaev A. Yu.	
Increasing the efficiency of electrodynamic separation of electrical and electronic scrap	495
Pogorelov B. T., Ryavkin G. N., Batrahanov D. H.	
Analysis of resource saving in fuel transfer systems	499
Saiko I. A., Uglinskih M. Yu.	
Research of possibilities to apply the serpentinite production wastes for glass producing	503
Sapozhnikova M. A., Pavlova I. A.	
Research of overlay clay rocks properties in order to determine their suitability in the production of ceramic materials	507
Tagirov R. I., Kornilova D. A., Kartavtsev S. V.	
Research of the wall heat operation of the continuous casting machine crystallizer for steel casting	511
Tychinkin I. V., Nein Yu. I.	
Mechanical recycling in low-waste production of multilayered polyethylene films	515
Uvarov V. A., Gotuleva J. V.	
Comprehensive technical inspection of the side filtration unit operation in the water supply system	519
Tsimbalenko A. A.	
Phosphorus oxide (V) influence on the structure and activity of different portland cement clinker	523

Chechushkin A. A., Sitkina D. A., Kartavtsev S. V.

The converter gases use relevance at the metallurgical plant527

NON-TRADITIONAL AND RENEWABLE ENERGY SOURCES. NON-CARBON AND SMALL ENERGY

Alikina V. S., Romanova T. N.

Prospects of wind energy development530

Biserova K. A.

Solar tiles as an alternative energy source534

Bogdanova A. A.

Prospects for bioenergy in Russia538

Bushuev A. S., Rahimova Yu. I.

Choice of wind wheel and electric generator type for wind power plants of low power542

Vaganova N. N., Nagornaya O. Yu.

Estimation of heat pumps efficiency at heat supply of residential houses546

Vasilyeva A. V., Pershina S. V., Vlasova S. G.

Electrochemical systems based on molybdenum phosphate glasses550

Vekshin D. V., Golubeva E. S., Khalyapov K. M., Shcheklein S. E.

Introduction of renewable energy sources to ensure energy efficiency of modern buildings554

Vlasova U. T., Romanova T. N.

Use and storage of solar energy558

Gazizov N. A., Kulikov D. V., Tonkushin A. S., Valtseva A. I.

Overview of wireless power transmission methods563

Ganich A. V., Romanova T. N.

Prospects for the use of low-potential energy of the Earth569

Demidenko N. D.

New energy policy based on renewable energy sources573

Eliseev E. V.

Efficiency of use of geothermal energy sources577

Endaltsev K. O., Guseva O. A., Ptashkina-Girina O. S.

Development of a laboratory stand for research of free-flow hydraulic turbines in water-supply systems581

Zakirov E. M., Popov A. I.

Tidal water-power plants586

Zubin V. V., Ptashkina-Girina O. S., Telyubaev Zh. B.

Analysis of biogas plants use efficiency in the Southern Urals591

Il'ina E. A., Lyalin E. D., Antonov B. D.

Electrical conductivity of $\text{Li}_{6.75-3x}\text{Al}_x\text{La}_3\text{Zr}_{1.75}\text{Nb}_{0.25}\text{O}_{12}$ ($x = 0-0.25$) solid electrolytes595

Kozyrev D. V., Ptashkina-Girina O. S.

Research of heat exchange in a well when the heat pump unit is operating599

Lyalin E. D., Il'ina E. A., Antonov B. D.

Sol-gel synthesis of $\text{Li}_{7-x}\text{La}_3\text{Zr}_{2-x}\text{Ta}_x\text{O}_{12}$ ($x=0.1-0.7$) solid electrolytes603

Marinina M. A., Sokolov M. M.

Features of alternative energy sources application in designing engineering communications in orthodox churches607

Maskurov I. V., Urtaev G. O., Gavrina O. A.

Prospects for the use of electric power renewable sources in mountain territories611

Medvedev A. V., Kulakov A. A., Chertova T. A.

Selection of solar installation optimal parameters615

Perevozchikov E. A.	
Heating and hot water supply of an individual residential house using a solar collector in conditions of the Southern Ural	619
Permyakova D. K.	
Development of technologies of energy accumulation and storage – the basis for the dissemination of renewable energy sources	625
Permyakova N. K.	
Prospects for the use of renewable energy sources in Russia	629
Poteryaev S. N., Shcheklein S. E.	
About the use of metal fuels in power engineering	633
Pronichkin N. R., Maltseva I. N.	
The use of photovoltaic modules in Sochi	637
Pushkar V. A., Shcheklein S. E., Akifyeva N. N.	
Solar energy potential of Uzbekistan	641
Rostovtseva I. A., Rahimova Yu. I.	
Problems and prospects for the development of wind energy	645
Ryavkin G. N., Batrahanov D. H., Pogorelov B. T.	
Economic comparison of mobile solar power plant and diesel electric generator use	649
Sadov A. A., Novopashin L. A.	
Diesel power installations on mixed diesel fuel as means of small power engineering in agriculture	652
Sakulin A. V., Pashnin S. M., Sheryazov S. K.	
The research of optimal parameters of solar installation	656
Sologubov A. Yu.	
About the methods and instruments for studying solar power devices	660
Stepanenko A. A., Deryabina Yu. A., Kosenkova A. S., Valtseva A. I.	
Use of renewable energy sources for lighting trails	665
Syropyatov V. L., Velkin V. I.	
Use of household and sewage effluents heat from the Northern aeration station using heat pumps	669
Khairtdinov I. R., Denisov K. S., Velkin V. I.	
Analysis of calculation of an integrated energy system based on renewable energy sources in Homer and VizProRES programs	675
Khalyapov K. M., Vekshin D. V., Maslov A. V., Popov A. I.	
Increase of received biogas volumes from solid domestic waste landfills	679
Kharin N. A., Nemikhin Yu. E.	
Using heat pumps	683
Checanin V. V., Skoropletov E. A., Guseva O. A.	
Improving energy efficiency of sewage treatment facilities through the heat pump use	687
Shamanin S. Yu., Blinov V. L., Goryunova I. Yu.	
Verification of a numerical model with an air flow of aerodynamic profile S809 for wind turbine blades	691
Shein V. M.	
Study of the possibility of increasing the energy efficiency of renewable energy sources during energy audits	695
Shkred M. A., Mitroshin M. A., Ponomarev I. A.	
Power generation from alternative and renewable energy sources for desalination	699
Elterman V. A., Borozdin A. V., Vovkotrub E. G., Shevelin P. Yu., Yolshina L. A.	
Determination of 1-ethyl-3-methylimidazolium chloraluminate ionic composition by Raman spectroscopy	703

NUCLEAR POWER. NUCLEAR POWER PLANTS: DESIGN, OPERATION, DECOMMISSIONING

Ovsenev A. E.

Static strength calculation of section branch pipe cutting-in of the makeup system in the main circulation pipeline of reactor plant WWER-1000707

Aladailah M. W., Tashlykov O. L.

Influence of adding multi-wall carbon nanotubes to materials on gamma radiation absorption factors711

Bessonov I. A., Chalpanov S. V., Breusova A. A., Tashlykov O. L.

About the production of selenium-75 isotopes714

Botenov I. I., Semenov V. K.

Influence of the “pure” condensate bubble on the reactor dynamics718

Grimenitski N. P., Beliakov A. A.

Modeling of physical processes in heat-fuel elements of water-water reactors722

Zavadskii D. I., Tashlykov O. L.

About the role of BIM modeling in the optimization of radiation protection of personal and in the design725

Kamenshchikov A. S., Golubeva L. V.

Analysis of RW handling in foreign countries729

Korel D. A., Tashlykov O. L., Munts V. A.

Improvement of spent nuclear fuel cooling safety in cooling ponds using thermosiphons733

Kostarev V. S., Litvinov D. N., Aristov N., Tashlykov O. L., Klimova V. A.

Thermohydraulic simulation of irradiation devices for isotope production737

Kurteev A. V., Sevastyanov M. M., Tashlykov O. L.

Development of a model of assembly-design protection against ionizing radiation741

Makarov I. N., Rabotaev V. G.

Development of a computer laboratory stand for research of the technological system of the NPP power unit745

Marov A. R., Beznosov A. V., Bokova T. A., Bokov P. A., Lvov A. V., Volkov N. S.

Substantiation of the layout and technical solutions of the reactor installation of the BRS-GPG units of small and medium power with a heavy liquid-metal coolant (lead and lead-vismulosite)748

Milov K. V., Lopatin D. S., Tashlykov O. L.

The estimation of dose costs of electricity generation at NPPs with reactors of different types752

Minina A. P., Ladeyshchikova E. S., Velkin V. I.

Relevance of bench and simulator training of students for nuclear power plants at the university756

Mitin A. D., Volman M. A.

Reliability analysis of nuclear power plants by RTRM method761

Romanov D. N., Tikhomirov D. A., Volman M. A.

Modeling of systems and auxiliary equipment of nuclear power plants763

Serkov I. A., Aristov N. M., Tashlykov O. L.

Creation of a solid model of an irradiation device for generation of selen-75 isotope765

E. D. Strugov, D. K. Ilyina, D. V. Shpakovskaya, A. D. Lezov, Shirmanov I. A., Tashlykov O. L.

Dose costs of personnel at the stages of the life cycle of fast neutron reactors769

Thuong Ta Van, Manh Ha Huy, Tashlykov O. L.

The development of training materials in the Vietnamese language for training specialists for the atomic energy of Vietnam773

Shershnev S. N., Tashlykov O. L.

Features of the first repair of NPP power units777

CLEAN COAL TECHNOLOGIES. GASIFICATION. USE OF LOW-GRADE FUELS AND MSW

Alekseev A. E., Khudyakov P. Yu. Development of high-temperature heat exchanger for working medium heating in composition of CGTP	781
Bataa N., Polkin A. V., Samarkina M. A., Abaimov N. A., Tuponogov V. G. Fluctuations of the fluidized bed surface	786
